Congratulations on your new product purchase! Sportsstuff prides itself in making the most innovative inflatable products on the planet. Your high performance product is designed to enhance your outdoor water activities.

Product Name	Model #	Approximate Inflated Dimensions	Person Capacity	Approx. Weight Limit
Pool N' Beach 6UP Lounge	54-1985	116in x 116in (LxW) 294cm x 294cm	6	1200lbs (544kg)

## IMPORTANT SAFETY INSTRUCTIONS READ AND FOLLOW ALL INSTRUCTIONS

**To lessen your risk of serious injury or death, follow these rules:**

- Please inspect the unit before and after each use.
- Read the owner's manual carefully before using your Sportsstuff product.
- This product should never be used by children except under adult supervision.
- Never leave children unattended.
- Not a lifesaving device.
- Do not use under the influence of drugs or alcohol.
- Intended only for use in pools, very calm waters away from boats and other hazards, indoors, or flat outdoor land surfaces such as beaches and patios.
- Use anchor at all times.
- This product is not to be used in the water by non-swimmers without a USCG approved life vest.
- Do not stand or kneel on this product at any time. Use only in the sitting or reclined position.
- Make sure the product is properly inflated with the air valve closed tightly.
- Do not use this product if it is damaged or leaking air.
- Do not exceed the manufacturer's recommended person capacity for this product.

## IMPORTANT SAFETY INSTRUCTIONS READ AND FOLLOW ALL INSTRUCTIONS

**To lessen your risk of serious injury or death, follow these rules:**

- THIS IS NOT A TOWABLE TUBE. Do not tow this product with anyone on it! This product can be pulled in the water ONLY to reach a desired location without exceeding 5 mph.
- Do not use this item as a baby or pet float.
- Do not use this item as a fishing vessel.
- Store this item deflated and indoors in a cool, dry place.
- Use at your own risk!
- Always stay awake and aware when using this item.
- Do not swim underneath this unit at anytime.
- Monitor and adjust bladder pressure on warm days and in direct sunlight.
- Do not use this unit when it is under-inflated. The risks involved with this could include entrapment which may result in death or serious injury.
- This product must be inflated on land. Do not inflate this product in or near the water.
- Do not drag across any land surface. Carry the product to the water. This may take several people to lift and carry the product. Do not attempt to lift this product by yourself.

## SAVE THESE INSTRUCTIONS

### RELEASE OF LIABILITY:

By assembling and inflating this product, you agree that you have read and understand the entire Sportsstuff's product manual, including all instructions and warnings contained in that material prior to using this product. You additionally agree that you will ensure any additional or subsequent users of this product will read and understand the entire owner's manual. Misuse or improper use of this product could result in risks, dangers and hazards which may result in serious injury or death. The risks and dangers that may be encountered through the improper use of this product can be avoided by reading and following the warning guidelines listed within the owner's manual and by proper use of this product. Your assembly and use of this product shall be evidence of your agreement, to the fullest extent permitted by law, to properly follow the instructions and abide by the warnings set forth within the product manual. Your assembly and use of this product shall also constitute a release, to the extent permitted by law, by you and by any third party permitted by you to use, in any manner, this product, to Sportsstuff from any and all liability for any loss, damage, injury and/or expense that you or any user of this product may suffer as a result of the use of this product. This release shall extend to any loss, damage, injury or expense due to any cause whatsoever, including negligence or breach of contract on the part of Sportsstuff and/or any party participating in the design and/or manufacture of this product. The terms of this release shall be effective and binding upon you, your heirs, next of kin, executors, administrators, assigns and representatives. Your assembly and use of this product shall constitute your agreement to assume and accept any or all known or unknown risks of injury to you and/or to third parties through the use of this product. Sportsstuff and related parties have not made and hereby expressly deny any oral or written representation and/or warranty, including warranty for a particular purpose, other than what is set forth herein and in the Sportsstuff's owners manual.

The Pool N' Beach 6UP Lounge includes:

- Heavy-Gauge PVC
- Molded Cup Holders
- Anchor bag
- Molded PVC Grommets

\* Please note the Pool N' Beach 6UP Lounge is not a towable.

#### **ASSEMBLY AND INSTALLATION:**

1. Locate the valve on the main tube
2. Inflate main tube until it is firm (Please see the INFLATION section below for proper inflation instructions).
3. Close valve completely.
4. Locate the valves on the remaining 2 headrests that are not inflated. Follow steps 2 and 3 to inflate.
5. You may now prepare the anchor for the product. Utilizing the anchor feature will reduce drifting and unwanted motion of the product. This product may be anchored by filling the attached anchor sack with sand, rocks, or a weight of up to 25lbs. Place the anchor on top of the item until product is in the water at the desired location.
6. To attach the anchor assembly to the island, simply tie one end of the supplied rope to one of the grommets on the side or top of the item. Lace the remaining end of the rope through the holes in the top of the anchor bag and tie a knot at the end so the bag does not come off. Once completed, the anchor bag will hang freely in the water from the item.
7. The product may be floated or pulled out to the location of your choice where it can remain for use.
8. If pulled to location, there should be no one on the product until towing has stopped and the item is anchored. Do not exceed 5 mph when pulling to location.
9. Once the product is in the desired location, drop the anchor bag in the water. Have fun!

#### **REPLACING PRODUCT PARTS:**

If a leak or problem is suspected with your tube, locate the valve and deflate the item to inspect possible problem areas. Contact Sportsstuff warranty department for prompt parts replacement if a problem is located. For non-warranty parts replacement, follow the same procedure. When a replacement is received, remove damaged portion and replace with new portion. Line up the valve and the valve opening in the cover (where applicable) and repeat applicable steps in the ASSEMBLY AND INSTALLATION section.

#### **USE:**

Once product is properly inflated this float can be used in pools or very calm waters away from boats and other hazards.

#### **INFLATION:**

Your Sportsstuff product is equipped with the following type of valve:

**Speed Safety Valve** - A hybrid valve utilizing the best of both the Oversized Safety Valve and the Speed Valve. Pulls out for fast inflation/deflation, then can be pushed in flush with the tube. For use with standard electric pumps, shop vac, wet vac, leaf blowers, and vacuums with a 2-way switch for fast inflation/deflation.

Secure the valve by firmly fastening the bottom portion of the valve into the base. To inflate, open cap or top portion of the valve. Using the hose from your inflator, inflate through the top opening of the valve.

The best air pumps to use are:

- 110v electric: 2.5 psi (model #57-1509) or 3.0 psi (model #57-1508)
- Hand/foot pump specifically for towables: LP1 (model #57-1004)
- 12v pumps can also be used but their maximum output is only .8 psi so a secondary pump such as the Sportsstuff LP1 hand pump (model #57-1004) will need to be used.
- Leaf Blower
- Vacuum with two-way switch

Various types of air pumps are available from Sportsstuff at 1-888-814-8833 or online at <http://www.sportsstuff.com>

Proper inflation is the key to the optimum performance of this product. The PVC bladder must expand and should be firm to the touch.

Photo "A" shows a tube severely underinflated. Note how the adult standing on the tube sinks down into the tube.

Photo "B" shows a tube properly inflated. Note how the adult standing on the tube barely sinks down into the tube. When properly inflated, all features of the product will remain sturdy and perform better, prolonging the life of the unit.

#### **Inflation Maintenance:**

Finally, it is not enough to simply fill it up and go! It is important to monitor the amount of air in this product as heat will cause the bladder to expand, possibly causing damage to the seams or I-beams. If you leave a full tube sitting in the sun for any length of time, it will expand. Either store it in the shade, or let some air out. Don't let it sit on the beach, dock, or boat full of air! At the same time, if it is stored out of the sun in a cool place, you may need to add air. Check and adjust inflation levels each time you use your tube. You'll have more fun, and your products will last longer.

#### **MAINTENANCE:**

Very little care is required for the product components:

- You may clean your product using soap and water or mild detergent.
- Never use strong cleaning agents.
- The product, when clean and dry, can be deflated and stored in a cool, dry area out of direct sunlight.
- To deflate, simply unfasten the valve from the base.
- Avoid storing this product in areas of extreme temperatures and please take precautions against animals and rodents.

**GENERAL TROUBLE SHOOTING GUIDE:**

**Symptom:** Product won't hold air.

**Solution:** Check to see that the valve is fastened or screwed on properly. Re-install valve if needed. Check to see if the product was inflated fully from the beginning. If you suspect it wasn't inflated fully, add more air. PVC Repair Adhesive is available from Sportsstuff at [www.sportsstuff.com](http://www.sportsstuff.com) or 888-814-8833 for small hole or seam repairs.

**Symptom:** Product inflates but doesn't become firm.

**Solution:** Please check to make sure it was inflated firmly with a high volume air pump. If you are sure you inflated it properly, examine it for a leak or re-install the valve. If a leak is detected, the bladder may be patched by using Sportsstuff PVC Adhesive which can be purchased directly from Sportsstuff.

**WARRANTY POLICY:**

Sportsstuff warrants, to the original purchaser only, that their high performance products, when used for normal recreational purposes, are free from defects in material and workmanship for a period of ninety (90) days from the date of purchase. Our warranty excludes products for rental, for hire, and other uses not considered normal recreational purposes. Sportsstuff will not be held liable for incidental or consequential damages.

Warranty registration is required in order for your warranty to be valid. Please register on-line at: [www.sportsstuff.com](http://www.sportsstuff.com) or you may mail in your warranty card that comes with the product. The warranty is valid only when the warranty card or on-line form is properly filled out and returned within (10) days from the date of purchase.

The Sportsstuff warranty does not cover:

- Failures caused by over-inflation and under-inflation
- Snags, tears, cuts and punctures obtained during normal use
- Fading from exposure to sunlight or weathering
- Misuse, abuse and neglect
- Improper storage

For prompt parts replacement or warranty issues, contact Sportsstuff directly at 1-888-814-8833. You may also send us an email at [customercare@sportsstuff.com](mailto:customercare@sportsstuff.com). Please have all information below ready when you call. We are unable to warranty a product without all pertinent information. Sportsstuff will make the final warranty determination which may require product inspection and/or photos of the product which clearly show defect(s).

In order to process your warranty request, we require the following three items:

- 1.) Sales receipt with date of purchase.
- 2.) Model number printed on the unit (Model numbers can be found on the main tube next to the valve. Model number can also be found on the information patch printed on the item.)
- 3.) ASM Code (6 digit code printed on the unit below the model number on the tube.)

**\*YOUR WARRANTY REQUEST CAN NOT BE PROCESSED UNLESS YOU PROVIDE THE INFORMATION REQUIRED ABOVE.**

Sportsstuff ships replacement parts within 48 business hours of warranty verification. Do not return Sportsstuff items to your dealer (USA only). This warranty is only valid in the USA. If you have questions about any Sportsstuff Inc. product, replacement parts, or locating a dealer in your area, contact us at:

Sportsstuff Inc.  
11213 E Circle Suite A  
Omaha, NE 68137
